DPD-3807-61

19 June 1961

MEMORANDUM FOR : Chief, Development Branch, DPD-DD/P

SUBJECT : Help Wanted - Male

25X1A

1. The transfer of [] presents some timing factors to be considered in the orderly completion of the Twin Helio test program. Present scheduling provides for the Air Force evaluation team to begin the flight test phase on 10 July 1961. The program should be complete by 31 July 1961. Just prior to the start of this program, [] will be in the process of "clearing the station." No successor has been named in DB to monitor and coordinate the program. At the completion of the test phase, a DB representative will have to accept the aircraft as having successfully complied with contract fulfillment in accordance with the design specifications. This must be accomplished prior to "pick-up" by operational personnel for delivery to the using organization.

25X1A

2. In addition, [] is a member of the In-Exfiltration and Technical Requirements Officers panels. A replacement should be named to fill these vacancies. Such individual does not have to be a representative of DB, but merely from DPD. Due to the nature of these panels in establishing operational requirements, it is recommended that the replacement(s) be named from sections other than DB.
